THE STORY OF A HEROIC DIAPER.

Marinello, in the city of Genoa, and has a fine view of the town, and, for a distance of two miles, the purple waves which wash its shore. But this was not always the case. Look back on the coast line, and you will see that the town is now situated upon a point of land which has been gradually encroached upon by the sea. It is a little over a century since the town was moved back from the sea, and the fortifications which protected it from the invasion of the Saracens were thrown up. But the town has now reached the point of land which was selected for its site, and the fortifications are no longer necessary. It is a fine example of the power of the sea to change the face of the earth.

The house of Marinello is situated on the point of land which was selected for the site of the town. It is a two-story building, with a small tower on the corner. The tower is made of stone, and is covered with tiles. The house is surrounded by a garden, which is divided into two parts by a small brook. The garden is planted with many fine trees, and is very pleasant.

Marinello, the father of the house, is a kind and hospitable man. He is a good gardener, and his garden is full of flowers. He is also a good farmer, and his fields are well cultivated. He is a fine hunter, and his dogs are very clever. He is a fine fencer, and his sword is very sharp. He is a fine swimmer, and his body is very strong. He is a fine singer, and his voice is very sweet. He is a fine writer, and his pen is very steady. He is a fine painter, and his brush is very skilful. He is a fine musician, and his voice is very musical. He is a fine dancer, and his steps are very graceful. He is a fine orator, and his words are very persuasive. He is a fine philosopher, and his thoughts are very deep. He is a fine poet, and his verses are very beautiful. He is a fine artist, and his works are very fine.

The daughter of Marinello is a fine girl. She is a good cook, and she makes very good food. She is a good housekeeper, and she keeps the house very clean. She is a good gardener, and she works the garden very well. She is a good farmer, and she cultivates the fields very well. She is a good hunter, and she hunts the game very well. She is a good fencer, and she fences the sword very well. She is a good swimmer, and she swims the brook very well. She is a good singer, and she sings the songs very well. She is a good writer, and she writes the letters very well. She is a good painter, and she paints the pictures very well. She is a good musician, and she plays the instruments very well. She is a good dancer, and she dances the dances very well. She is a good orator, and she speaks the words very well. She is a good philosopher, and she thinks the thoughts very well. She is a good poet, and she writes the verses very well. She is a good artist, and she makes the works very well.
