FRANKLINVILLE, March 30, 1863.

The bill providing for the creation of the Bank of Franklinville, was passed by the House of Representatives, and sent to the Senate, where it was reported by the Committee on Banking and Currency, without amendment.

The bill has not yet received the attention of the Senate, but it is expected that it will be taken up at an early date.

The bill provides for the organization of a Banking Institution with a capital stock of $1,000,000, to be divided into shares of $50 each. The bank is to be located in the town of Franklinville, and is to be governed by a board of directors consisting of not less than five nor more than seven members.

The bill also provides for the establishment of a system of banking and currency, and for the regulation of the operations of banks and other financial institutions.

The bill has met with the approval of the financial community, and is expected to be passed by the Senate and signed by the Governor.

The bill is a step in the right direction, and is likely to prove beneficial to the financial interests of the country.
