News of the Wook.

There seems to be no bope whatever for conciliation on the part of the North to actile the existing trouble is the country. The Republican party of the North is now beginning to talk fisteredy of war as the only means to put down secssion. They would rather have war than repeal their Personal Liberty Bills. A little friendly legislation by a few northern States would settle the whole difficulty, and cost the country less in treasure and bloodshed, than sending an army down South. We hope the Republicans will show their consistency by calling as loudly on LINCOLN, should be even be inaugurated President of these United States. States, which we very much doubt, as they have upon Mr. BUCHANAN to send an army to South Carolina to covere her into submission. Let that be tried by Lincoln's administration and the bloodiest war that history has ever recorded will take place in this country. The truth is, the only hope for the United States.

In the second of the most ominous signs of the times is the Hon. Howell. Country of the United States.

Mr. Count's retirement is not the result of an administration quarrel. He country, the Country, the Country of the United States.

Mr. Count's retirement is not the result of an administration quarrel. He country that the country that the send of the United States.

Mr. Count's retirement is not the result of an agent and remarkably ultra in the country that the country that he would be even be into submission, and administration quarrel. He country that the self, but because a sense of duty to his administration and the bloodiest war that history has ever recorded will take place in this country. These who are acquainted with the political life of Mr. Count will see in the submission of the properties were than the submission of the properties war that history has ever recorded will take place in this country. The truth is, the only hope for the Union. When, at that the properties of the presidence of the political life of Mr. Count will be propertied that it times before the present administration goes out. If the Republicans keep on interposing every obstacle to a fair and honorable settlement until the existing administration expires then all is lost. Lincoln can do nothing—every act of his will only add fuel to the flame, while his party can not back down in their demand for mis will only add fuel to the flame, while his party can not back down in their demand for coercion as their remedy for secession. If the excitement is not quieted down by concession and compromise before Lincoln comes into power then war is inevitable. The true policy to pursue is that comes into power then war is inevita-ble. The true policy to pursue is that laid down in the message of Mr. Bu-chanan. If the wise and conservative course he has marked out is followed the country will not only be saved from dismemberment but from the horrors of a civil war.

The most important events of the week are the resignations in th Cabinet. Cous and Cass have both retired. Cubb has gone home to Georgia and is addressing the people of that State. He advises them strongly to immediate secession and warns them not to delay it an hour after the 4th of March next. What part Cass intends to play has not yet appeared in the bills. They both profess to have parted with Mr. Buchanan on friendly terms and are lavish in their praise of the wisdom and parity of his governing The most important events of the the wisdom and purity of his governing policy. This is all very well, but it certainly looks very cowardly in them certainly toos very cowardly in them to forsake their posts in the hour of danger and the country will yet settle the account with them for the act without a balance appearing in their favor. We have rumors that Thomp. son has also resigned his position in the Cabinet. If these gentlemen sacthe Cabinet. If these gentlemen sac-rifice place for the good of their coun-try their patriotism is certainly to be commended, but if less worthy motives have actuated them the country, in the end, may not regret the course have taken as much as they will them

We certainly have no desire to keep up the Panic feeling in the country and felt rejoiced at the indications of and left rejoiced at the indications of an improvement in the Stock Market, in our principle cities, exhibited in the early part of the week. Every thing looked bright and promising for a few days but along came an unfavorable blast from the South and stock went down again like lead in water. The uncertain condition of the country and dread of civil war has produced the most disastrous results to the business of the whole country, and now that the Republicans seem to have "blood in their eye," and that that great po-litical mischief-maker, Douglas, is to back them up by a "operaive speech," we may look for a farther decline in the price of stocks, produce, &c., and a winding up with a dissolution of the

"Free Labor and Free Homes."
The "Republican" leaders promised the people "free nator" as one of the results of their success, and they are giving it to them with a sengeance. Inher is so "free" that it can be had for almost nothing. It is gating down to the starvation point. As an instance of the way people who voted for Lincoln are waking up to the sterrile realities of driving our enstoners from us, we due the following:

This prodigious doessent abounds so much in statistim, it as it is exceedingly difficult to condense its substance into an abstract. On the 30th of June least, there were in operation 2502 mail routes, estimated at 240,094 miles in length of which \$7.129, miles were by railroad, 11,976; justambest, 51,577 by coach, and 143,91; by infinite mode it is in length of contractors were 1445. There has been a destracted of 94,455 miles in length of the mail routes but this is made up of a reduction of 8,461 miles in the length of coach routes, while the length of rai tond routes, while the length of rai tond routes has inotracted 1119 miles. There are in the service 40 local agents, 1,649 miles has inotraced 1119 miles. There are in the service 40 local agents, 1,649 miles and during the year is 45,555, of which 1140 were by the entablishment of new postoffices. Whole number of postendies at the Usion 23,552.

As assual there is an enormous deficiency in this department, reaching \$5,655,705 49 as the excess of expenditure spin the department, reaching \$5,655,705 49 as the excess of expenditure spin the free course for 1840, and for the enseing year a deficiency of \$4,556,600 in figured up by the Postumeter General which, is all prof shifts, will be far below the real, from the revenue increase very gradually, while the apponditures go up very rapidly.

The Postumeter (secent less much to say about his experiments with the penny jook, and he recommendate there are the entherity to collect such postage on a 1 letter delivered by carriers as shall be dound neces

ABSTRACT OF THE REPORT OF THE
SECRETARY OF THE NAY!.

This document commences with the report of a burd of officers appointed to examine into the expediency of converting the sailing ship of the Nay into efficient war steamers. The board considered it is expedient to introduce steam power into any except ships of the line, all of which it is proposed to alter thus except the beloware, now too defective to permit it. Those ships are to be reassed and converting the the Minoscota cost \$725,000 such, whereas the proposed alteration would cost but \$388,000 for each. Of the sailing frigates, the United States is not worth repairing. The Constitution, has been prepared, and the reusalizing air should be converted into shores of war, and faulty into storeships. The sloops of war hould private the proposed with new vessels. Of the six new first class side wheel seamers Saquebaana, Sarane, and Powhatan may by introducing screw propalsion, be made effectively, accompanied by the universal introduction into it of slows mad an entire preformance have been astifactory. The sixth, the Pensacola, will soon be completed.
