**RECAPITULATION OF THE WEEK.**

It is supposed to have been written in haste and without the usual care, but it is not done by the publisher, but by English and we do not wish to be criticised for that.

We must thank the committee for their efforts, and the work of our men.

At the meeting on the 21st, we had a very good session, and we hope that our friends who were not present will be able to do so next time.

At the meeting on the 28th, we had a very good session, and we hope that our friends who were not present will be able to do so next time.

**THE WIVES TO THINK.**

To think of the things that we do for our husbands, and the things that they do for us. We should be thankful for what we have, and not grumble for what we do not have.

**LEGENDS OF MILLBARY.**

One of the legends of the lake is told thus: "Once every winter, the snow comes down to the bottom of the lake, and the fish come out to feed on the bottom. One day, a young boy named John went to the lake with his fishing rod, and he caught a large fish. He brought it home, and he was very proud of it. But when he brought it to his father, he was very angry. He said, 'That is not my fish, it is the fish of the lake. You have taken it from me, and I will take it from you.' So John was very sad, and he never went fishing again. And the fish that he caught was never seen again."

Valley Spirit. CHAMBERSBURG, JAN 1, 1902.

NEW YEAR POEM.—Our Carrier will make his appearance on New Year Day with a magnificent annual address to his patrons. The production is really a very original and worthy literary composition. Our Carrier has served our subscribers faithfully through the year and we would bespeak for him a generous reward.

HEALTH OF OUR TROOPS.—An ex-claimer says:—It is a remarkable fact that there is less sickness in the Pennsylvania regiments on the opposite side of the Potomac than in this region for other reasons. This is attributed, in a great measure, to the many necessities and comforts which are sent to them by their friends at home.

GOOD ADVICE.—A volunteer who prides himself on the domestic arts he has learned through camp life, writes home to advise the girls not to be in a hurry to marry. He says he will be home in a short time and they can get good husbands that can cook, wash and iron, and do general housework or work in the garden, or run errands for their wives.

PERIODICAL COMET.—How well known PERIODICAL COMET is now visible, with the aid of a telescope of moderate power, in the constellation of Auriga. Its average time of revolution round the sun is forty months or three years and a third, which is the shortest period of any known comet. It will not return to the earth until the sixth of February, at which period it may be plainly seen in the magnificent clothing store of A. J. WHITE, a few doors south of the bi-monthly market.

INTERESTING EXPERIMENTS.—According to experiments made in Paris, the pulse of a lion beats forty times a minute; that of a tiger forty-six times; of a bear, forty-three times; of a monkey, forty-eight times; of an eagle, one hundred and sixty-four times. Experiments were also made by which it was satisfactorily proven that the Hate and Caps sold by J. D. Decker, cannot be surpassed for durability, style and cheapness.

WAR WITH ENGLAND.—How startling the thought! Yet our present rebellion is but the first of a national strife—civil war—brother against brother—and other thoughts so heart rending, that men grow old and true were for a time or three months, yet now, who would not for a penny at the expense of principle? And we are satisfied that if our action now is from motives of right, we may defy the world with us. GENTLEMEN:—I accept your very flattering invitation, but wish to avoid the responsibility of naming a time to comply with the course of a few weeks will be equally suitable to me. Yours truly, GEO. O. SELLMAHER.

BARNS BURNO.—On Saturday evening last the large barn on the Mill premises of Geo. Jonathan Harlow, near Hagstrawton, was destroyed by fire, with a large portion of its contents. About 11 o'clock, the same night, the barn on the farm of Stonebraker near Barstowville, was destroyed by fire. The contents belonged to Mr. John E. Knoke, the tenant, and consisted of 1200 bushels of wheat, ten or twelve horses and colts, all of which were completely destroyed. Mr. Knoke was absent at the time, and that little or nothing was rescued from the burning. The loss was estimated at \$10,000. There was said to have been the work of incendiarism in Washington, Pa.

PROCLAIMER OF THE FRANKLIN COUNTY TEACHERS ASSOCIATION.—The meeting was held at the Washington school academy, at 5 o'clock P. M. on Wednesday, Dec. 25th, 1901. The Association organized by calling Mr. P. M. Shoresaler to the chair. Secretary, Robert M. H. Noble appointed pro tem. Mr. P. M. Shoresaler made some remarks, urging all teachers to feel it their duty to attend to the duties assigned to them. He then read the constitution and by-laws read by secretary. The Superintendent spoke of the importance and duty of teachers becoming members of the Association, and variously stated that he would be glad to have any teacher responded to his call. The programme was taken up. Mental Arithmetic was very ably discussed by Mrs. Esteban, Richards, Lehman, Knoff, Shoresaler, Knight and Eckhart. The "Answered form" was spoken of as an important auxiliary in teaching this branch. It was mentioned that frames were not provided by Directors. Others said that teachers could construct their own. Discussion followed.

Night Session.—Mr. Hunsinger in the chair. Prayer by Mr. A. McWilliam. Mental Arithmetic continued and discussed by Mrs. Esteban, Richards, Lehman, Knoff, Shoresaler, Knight and Eckhart. A. McWilliam gave a short address on the moral general education of this branch. Geography was then introduced by J. Eckhart in a paper which was well received by the audience. He treated of it under three heads, viz: Analytical, Synthesis, and Constructive. Mr. McWilliam gave a rather humorous dissertation on the subject speaking of the deficiency of apparatus in this country. He then read a paper on "Curriculum Studies, A. M.—A. McWilliam in the chair. Prayer by Mr. B. Hunsinger. Geography, speaking of the importance of Outline maps, and the necessity of teaching the same. Mr. Eckhart said he had prepared a charting system, but gave favored it. Mr. Eckhart favored a miniature, on order that a permanent impression be made the pupil must study. Mr. Eckhart continued his paper on geographical charts. Mr. Eckhart said he had prepared a charting system, but gave favored it. Mr. Eckhart favored a miniature, on order that a permanent impression be made the pupil must study. I suffer more from a Cough or a Hoarse Voice  
 or a Bad Throat, than from any other ailment,  
 and I find that Spalding's Throat Confections  
 do more for me than any other medicine.  
 They relieve a Cough instantly. They clear  
 the Throat. They give strength and volume  
 to the voice. They impart a delicious aroma  
 to the breath. They are delightful to the  
 taste. They are made of simple herbs and  
 contain any one.
